

GST funding

For your commercial property purchase.

Access short-term funding for GST costs on property purchases

Purchasing commercial property is an expensive exercise. Along with everything else to consider, GST must be paid on top of the purchase price. Most bank loans won't cover this cost and require you to come up with the additional 10% yourself.

Although the GST is later recovered from the ATO, reclaiming the money can take up to **120 days**. This often causes significant cash flow problems, potentially jeopardising the transaction altogether.
